

Was LiftRight able to adjust its feedback according to your level of feedback? [The feedback reflected changes in my posture during later repetitions.]

Was LiftRight able to adjust its feedback according to your level of feedback? [The system helped me maintain proper form when I was getting tired.]

Usability [The dashboard was easy to navigate.]

Usability [The layout of the dashboard was clear and organized.]

Usability [I was able to understand my performance results easily.]

Usability [The information displayed was useful.]

Learnability & Usefulness [I could use the system without needing assistance.]

Learnability & Usefulness [The dashboard helped me view my trainees' sessions, and I can easily track their progress during their sessions.]

Learnability & Usefulness [The system allowed my trainees to adjust their form the same way we could.]

Learnability & Usefulness [For future trainees, I would like to use this system as a guide for them.]

[I think that I would like to use this system frequently.]

[I found the system unnecessarily complex.]

[I thought the system was easy to use.]

[I think that I would need the support of a technical person to use this system.]

[I found the various functions in this system were well integrated.]

[I thought there was too much inconsistency in this system.]

**[I would imagine that most people would learn to use
this system very quickly.]**

[I found the system very cumbersome to use.]

[I felt very confident using the system.]

[I needed to learn a lot of things before I could get going with this system.]
